

4th ISSCT MOLECULAR BIOLOGY WORKSHOP

Montpellier, FRANCE
7 - 11 April 2003

"GENOME ANALYSIS AND MOLECULAR PHYSIOLOGY"

- PROGRAMME
- PARTICIPATION
- REGISTRATION

THEMES

The draft programme is given below. We have received 33 abstracts including 26 verbal presentations and 7 posters. Prospective participants are invited to submit abstracts of up to 400 words before **November 30, 2002**, indicating if it is a paper or poster submission.

Session themes will depend on the abstracts submitted. They could include the following:

- Genome structure and diversity
- Genetics, physiology and manipulation of sugar content
- Genetics, physiology and manipulation of disease resistance
- Technical advances

A session of discussion on SSR as a tool for variety identification will be held.
